Attachment

**Attachment --- Additional Questions for the Record**

**The Honorable Representative Bilirakis**

1. Do the territories have the same reporting requirements that states have for their Medicaid program?
2. Are there other things that the territories should be providing to increase the level of transparency and accountability in their Medicaid program?

**The Honorable Representative Brooks**

1. The Medicaid and CHIP Territory Fraud Prevention Act provides for additional federal funding for territories to create Medicaid Fraud Control Units. Given your experience with the Fraud Control units in the states, please explain why you think this is a wise investment of federal dollars?
  - a. If so, from these statistics are you able to roughly estimate how much might be saved in the territories by ensuring the MFCUs are operational?
2. Do you have statistics on the amount of dollars recovered or saved as a result of the operation of Medicaid Fraud Control Units? For example, on average, for every dollar invested in a Medicaid Fraud Control Unit, how many dollars are recovered?
